I am a self-motivated, detail-oriented developer with a passion for technology and innovation.
A fast-learner and autodidact, I enjoy tackling challenges and finding creative solutions.
A confident team player with strong communication and leadership skills, I thrive in collaborative environments.
I am goal-oriented and always focused on delivering high-quality results.

Work Experience

Full Stack Developer, Bizibox Company

2023 - present

As a Full Stack Developer at a dynamic fintech company, I collaborated within a team of 8 talented professionals to provide innovative solutions. My role involves front-end development using Angular17 to deliver intuitive and responsive user interfaces, and back-end development using Spring Boot.

Key Achievements:

- Developed and implemented the billing algorithm for both the server and client sides.
- Designed and built client-side infrastructure components with Angular17.
- Conducted thorough design planning by creating ER diagrams to visualize the application's data flow and structure.
- Actively participated in agile development methodologies, including sprint planning, daily meetings and code reviews.
- Collaborated closely with designers, product managers and other developers to ensure alignment with project goals and timelines.

Private Tutor

2022 - present

Gives private lessons to students in the courses "Introductions to Computer Science", "OOP" and "Modular Programming", while emphasizing a deep understanding of data structures.

Independent Coding Projects

2021 - present

Developed various projects to expand skills and explore new technologies, including:

- E-commerce Application (React & Spring Boot)
- My-cookbook (Angular & NodeJS)
- Cheaper (React Native & NodeJS)
- Sorting Competition (C & signals)
- Circle-The-Cat Game (C++ & BFS algorithm)

Explore my projects on [GitHub](#) or [Portfolio](#).

Education

Computer Science

2021 - 2023

B.Sc. in computer science at Hadassah Academic College, Additionally, as a student, I mentored other students at my college, helping them with their studies and projects.

Skills

C/C++ | Java | Spring Boot | OOP & SOLID principles |
Angular17 | JavaScript | NodeJ | Dbeaver | HTML | CSS
| SCSS | Git | Bitbucket | GitHub | Microservices |
Liquibase | REST API | MySQL | Jira | Confluence |
Agile Methodologies and Sprint Planning | TypeScript

Language

Hebrew – Native
English – Fluent
