LironAlmog95@gmail.com | 050-5880688 | <https://www.linkedin.com/in/lironalmog>

Self-motivated, fast-learner, autodidact, goal-oriented developer. Detail oriented individual with can-do approach and passion for technology and innovation. Adept at collaborating and great team player with confident leadership and great communication skills. Quick and creative solution finding abilities.

Experience

Private Tutor, Hadassah academic college

2022 - present

Gives private lessons to students in the courses "Introductions to Computer Science" and "Modular Programming", while emphasizing a deep understanding of data structures.

HTML, CSS & JavaScript Development

2022 - present

I have one year of hands-on experience in HTML, CSS, JavaScript, and REST API development, contributing to the creation of dynamic and responsive web solutions.

C++ Development

2021 - present

- Demonstrating a strong foundation in C++ programming with a proven proficiency spanning two years.
- Applying Object-Oriented Programming principles effectively to create efficient and modular software solutions, including the development of engaging games.

Education

Computer Science

B.Sc. in computer science at Hadassah Academic College.

Military Service

Commander & Fighter, Israel Defense Force

2014 - 2017

I was a fighter soldier in the army. Later, I was promoted to be a commander of a large group of soldiers and officers. As part of my role, I had to make complicated and important decisions and also solve problems under pressure.
